 PRODUCT SKU: 1282 CRANBERRY APPLE | 32 FL. OZ.
 PRODUCT SKU: 1285 STRAWBERRY KIWI | 32 FL. OZ.
 PRODUCT SKU: 1287 POMEGRANATE | 32 FL. OZ.

Why Choose Ultimate Aloe?

Ultimate Aloe separates itself from the competition by being recognized with the IASC seal, certifying aloe content and purity. The Aloe vera in Ultimate Aloe is harvested and processed according to sanitary manufacturing practices that use specific time and temperature guidelines. Aloe vera is rich in polysaccharides, and through this patented process these polysaccharides are isolated in a highly stable and bioactive form. Ultimate Aloe supports a healthy digestive tract and a strong immune system, while also promoting the normal healing process. Also, by eliminating undesirable components such as aloin, Ultimate Aloe is void of a "laxative effect."

What is the concentration of aloe in the different flavors?

All flavors are 100 percent aloe vera.

What benefits are there in taking a liquid form of aloe instead of a tablet form?

The liquid form of aloe is much more bio-available than in pill form.
